

CARLOS MIGUEL QUERALES DAZA

Customer Success Engineer | Head Of Support | IT Service Delivery | Technical Support Manager

Remote (LATAM) | camelsouth@gmail.com | [linkedin.com/in/carlosmiguelqueralesdaza](https://www.linkedin.com/in/carlosmiguelqueralesdaza)

PROFESSIONAL SUMMARY

Customer Success Engineer and Technical Support Operations leader, combining Full-Stack development knowledge with a deep understanding of business strategy and Customer Experience. 10+ years managing IT service delivery, incident management, and cross-functional teams of up to 15 people in bilingual SaaS environments (US/LatAm). Founded the Support department for PDS S.A. (Bistrosoft Argentina), sustaining a 90% monthly ticket resolution rate while directly monitoring MRR and Churn alongside leadership. Skilled in ITIL-based Continual Service Improvement, SLA/KPI compliance, and technical stakeholder communication. Combines code-level troubleshooting, customer empathy, and a product-centric mindset to drive product adoption, resolve complex incidents, and secure account retention.

PROFESSIONAL EXPERIENCE

Customer Success Engineer / IT Support Specialist / FrontEnd Developer | *ElevationWeb (Remote, USA/Argentina)* Jun 2021 – Present

- **Customer Success:** managed a portfolio of 7+ clients (2-person developer team), resolving ~100 technical tickets monthly with 70% first-contact resolution and 90% cumulative resolution; tracked MRR and Churn alongside leadership.
- **Integrations & Collaboration:** integrated REST APIs (Stripe, WooCommerce, PayPal, HubSpot, Google Analytics) and collaborated with developers and designers via Git/GitHub, Pull Requests, and Code Reviews under an Agile methodology.
- **Front-End Development:** designed, built, and maintained custom WordPress themes in PHP, JavaScript, and React, starting from a base theme on each project and evolving it into reusable modular components (newbuildings.org, natureandculture.org, tac.org, alicolalition.org, among others).
- **UI Responsive & Performance:** built interfaces with HTML, CSS, and SASS, ensuring cross-browser compatibility, performance optimization, security, backups, firewall, and DNS.

IT Support Specialist Lead & Customer Success | *PDS S.A. – Bistrosoft (BA, Argentina)* Sep 2018 – Apr 2021

- **Founding the Department:** created the **customer service** department from the ground up, designing the entire process: hardware configuration, installation, and lab debugging, on-site client deployment, and system go-live for the point-of-sale platform.
- **Leadership:** led a 3-person support team, also coordinating with 6 people in operations/logistics and 6 in development through agile ceremonies (dailies, demos, refinement, retrospectives) — effective cross-functional leadership of up to 15 people.
- **Technical Resolution:** Managed 30-40 monthly tickets, including complex fiscal integrations (*Bistrosoft-Contabilium*) and live orders from *PedidosYa*, *Rappi*, and *MercadoPago*, ensuring data consistency across mobile, web, and reporting.
- **Continuous Improvement:** implemented ITIL-based continual service improvement processes, reducing resolution times for critical incidents, supported by a Git-based workflow and ongoing collaboration with the QA team.
- **Engineering Collaboration:** worked alongside the Product Owner and the .NET development team of a SaaS POS platform (Mobile: **Android**, Web: React, Backend: .NET), participating in Agile ceremonies (SCRUM), release validation, bug prioritization, and requirements analysis.

IT Help Desk Coordinator & Software Developer | *Intersouth S.A. (Mexico)* Feb 2014 – 2016

- **Leadership:** led a 3-person multi-tier support team, applying knowledge of SQL Server, QA, and Android development.
- **Technical Support:** managed support for ~30 corporate clients in Mexico (*Bydsa & Pepsico*), independently resolving 20–30 tickets monthly before scaling the team.
- **Development:** Developed web components with PHP, JS, HTML, and SQL Server for the Merkant mobile sales-force application, ensuring service continuity and quality.
- **QA & Documentation:** participated in version control, feature testing, requirements gathering, technical documentation, and software implementation.

Freelance Projects — E-commerce | *Independent* Various periods

- Developed and customized e-commerce stores using nopCommerce (C#/ASP.NET customizations) and cs-cart for freelance clients: bug fixing, frontend/backend customization, and deployment.
- Implementation and configuration of Odoo 16 e-commerce for a freelance client in Caracas, Venezuela.
